Point Of Touch Church, Chattanooga, TN

Vision Ministries International, Henrietta, NY

Operation Threefold Cord

The **Mission Consortium of Churches International, Inc.** and all of the participating ecumenical organizations would like to thank you for attending this monumental service and outreach on behalf of the numerous needy victims in Port Au Prince, Haiti and all of its outlying towns and villages that were equally if not more devastated by the **2010 earthquake**. **Operation Threefold Cord™** will continue to answer the call of the citizens of the world in their times of crisis. For more information on donations and in kind donations you may contact the Presiding Bishop directly via email or telephone per the information below. Again, we are grateful and we know the Haitian people are grateful for all you donate and the prayers you submit to the Lord on their behalf.

Bishop C. Michael Tillman, Sr.

Chief Of Staff Office of the Presiding Bishop

**Point Of Touch Ministries
3111 Calhoun Ave.

Presiding Bishop, MCCI, Inc.
Senior Pastor, Power of Touch Ministries
3111 Calhoun Ave. Chattanooga, TN

Benediction **Clergy**

Did You Know...?

You have probably seen graphic images of the destruction, the mass death, and the despair of **Haiti** following the massive quake of January 12. Already the poorest and most dysfunctional state in the Western hemisphere, the quake essentially rendered the country a failed state with no functioning government at all, and

- as many as **200,000 dead**, many of them still stacked up and lying in the streets, and scattered throughout the massive piles of rubble
- **250,000 injured**, many with major crush injuries that are now getting infected—presaging another round of mass death—and with just a handful of doctors and field hospitals to care for them
- **1.5 to 2 million people left homeless**, without food, water, or shelter of any kind
- **2/3 to 3/4 of all buildings and infrastructure destroyed** and in piles of rubble covering the many dead still remaining to be removed
- hundreds of thousands of new orphans that are now being added to the hundreds of thousands of orphans already existing in Haiti before the quake due to parental deaths because of **AIDS** and the onslaught of hurricanes and floods in recent years that have killed with a chilling remorselessness.

The Haitian tragedy is likely the **"perfect storm"** of a disaster, because it destroyed nearly the entire country, and there are numerous major barriers to getting relief into the country and to the people needing it most (like one sea port that was destroyed in the quake, and one airport with just one runway that is completely overwhelmed with air traffic).

Nevertheless, the media are reporting a daily train of miracles many that are clearly the work of the Almighty and for which the Haitian people are singing and praising God for His mercy. This stubborn sub-plot will not die—it is as if **God Himself is creating a life-giving and resilient narrative to compete with the dark narrative of death and destruction.** Yet these miracles are but drops in the ocean of pain and suffering that will be overwhelming for weeks and months and years to come. The Haiti disaster story has already begun to be placed on page 2 and 3 of the daily newspapers all across the nation and even being relegated to marginal 12 line stories, but the needs of these people of God and citizens of the world continue. Won't you please be a part of the ongoing support efforts such as today? MCCI, Inc. website is being repaired but you can find a page dedicated to Operation Threefold Cord at www.cmichaeltillmanministries.org and there will be updates on the weblog www.tillmanandassociates.wordpress.com.
